RE: Belle Glade Housing Authority

Michael,

We are in their schedule. They should get the inspections done over the next few months.
Alan

Alan,

I apologize for the delay in providing you with this executed proposal. You can now have your provider complete the Capital Needs Assessment.

Attached is the proposal you requested. I imagine it is quite a bit more expensive than when we did this work for you in 2006, there are more items in the CAN reports now, and the sampling requirement has been raised (40% of units must be sampled in a project this size, we only inspected 20% when we did this property last). Let me know if you have any questions.

Thanks!
